

Guaranteeing operational management

Version 6.0 of 12 September 2019

Wherever an ancillary service provider (tendering ASP) does not directly undertake to provide operational management of services but contracts this work out to another ASP (ASP undertaking the operational management, or “ASP UOM”), the tendering ASP shall transfer all the rights and obligations required to carry out operational management to the ASP UOM.

By signing this form, the tendering ASP and the ASP UOM certify to Swissgrid that the tendering ASP has contracted the ASP UOM and transferred to the ASP UOM the rights and obligations required to carry out operational management. In addition, they acknowledge that the tendering ASP is Swissgrid’s sole contractual partner and thus remains responsible for satisfying all rights and obligations under the applicable framework agreement.

The tendering ASP transfers the operational management of service provision for

- Primary control
 Secondary control
 Tertiary control

to the ASP UOM.

Partner participation
