Your Balance Group Registration

Appendix 3 «Registration form» includes all information in accordance with your declaration and refers to further documents that need to be submitted concerning the establishment of a balance group in accordance with the Balance Group Contract Chapter 3 as well as the General Balance Group Regulations Chapter 1.

Further documents need to be submitted:

- » Signed Balance Group Contract in duplicate as well as the signed present Annex 3 «Registration form»
- » Presentation of legally valid proof of the applicant's status as a legal entity (generally by means of a registry extract), not older than three months
 - » Swiss contractual partner: A commercial registry excerpt that is certified by the commercial registry official. It does not have to be notarised additionally for the purpose of this Agreement.
 - » Foreign contractual partner: A current extract from the commercial register that has been issued and/or is certified in accordance with the national law of the country in which the contractual partner has its registered office is in accordance with the law. If this is not received in the German, English, French or Italian language, a translation into one of the languages must be made.
- » Copy of the undersigned person's personal identity document as well as a residence certificate
- » Provision of suitable collateral in accordance with specification, as well as documented evidence of the issuing institute's rating
- » Confirmation of the BGM's bank that the BGM has set up the SEPA direct debit mandate for the benefit of Swissgrid. In an individual case and only by agreement, the Swissgrid direct debit form can be used
- » Organisational chart with the company's central functions

Optional documents:

- » Grant of power of attorney of the undersigning person if this person is not indicated in the registry extract
- » Grant of power of attorney regarding the delegation of the processing of schedule messages as well as taking receipt of the imbalance data
- » Balance sheets of the last three years, if these are not publicly available
- » Documented evidence of shares in pumps and power plants

Please print out one copy of this document and two copies of the Balance Group Contract, sign all copies and send these with documented evidence in accordance with the law of the applicant's continued existence as a legal person by post to Swissgrid.

Best regards

Swissgrid Ltd

Collateral corresponding to limit in €

Calculated collateral for new BG in €

Collateral for already activated BG in €

Total collateral in €

Please note: This document serves as an example. To fill in the Appendix 3 «Registration form», please use the customer portal for balance groups.

Confirmation of the application for registration and signature

By signing and submitting Annex 3 «Master Data Registration Balance Group», the applicant takes note of the requirements for establishment of a balance group as given in Chapter 1 of the General Balance Group Regulations.

Please note: The registration process has to be completed within a period of six months at the latest following receipt of the application form. If the registration process cannot be completed within six months due to missing details not provided by the applicant, the applicant is called upon to provide Swissgrid with a binding date for the submission of all required details and documents as well as the completion of the tests. Failing this, Swissgrid will return all previously submitted documents to the applicant and end the registration process. The registration fee is non-refundable. If another application is submitted following this, the registration fee needs to be paid again.

The complete Requirements for Establishment and Activation of the Balance Group are defined in the Balance Group Agreement as well as the General Balance Group Regulations.
